

Enzymax® from Hu-Friedy
A Higher Standard of Clean

Hu-Friedy®

SETTING A HIGHER STANDARD FOR INSTRUMENT CLEANING AND CARE.

Your practice and patients deserve the best, so count on Enzymax for:

- A superior level of instrument cleaning powered by a dual-enzyme design that works quickly to remove and prevent biofilms while thoroughly cleaning instruments
- Extended instrument life enabled by Steelgard™ agents and corrosion inhibitors
- Multi-purpose applications including ultrasonic, presoak, linen spot removal and evacuation cleaner
- Biodegradable and phosphate free
- Fast, effective and responsible formulation for instrument care and cleaning

Enzymax Spray Gel

An easy-to-use, clear instrument pre-cleaner with corrosion inhibitor. Helps dissolve blood and tissue, and keeps debris moist to prevent drying on instruments.

Enzymax Powder

A lighter-weight concentrated powder allows Enzymax to be cost effective while saving valuable storage space.

Enzymax Liquid

A fast-acting, concentrated, liquid formula. Available in easy to pump quart, gallon and liquid unit dose configurations.

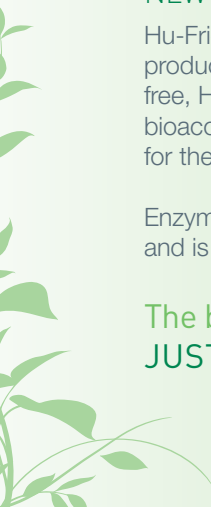

Enzymax PAX single-use packets

The ultimate in convenience! No measuring or scooping needed, just use one packet per gallon of warm water.

NEW Earth-Friendly Option – Enzymax Earth™

Hu-Friedy is dedicated to providing environmentally friendly cleaning products. While all Enzymax products are biodegradable and phosphate free, Hu-Friedy's line of green detergents, Enzymax Earth, presents less bioaccumulation potential and contains enzyme stabilizers that are safer for the environment.

Enzymax Earth offers the same superior cleaning attributes as Enzymax and is available in liquid and PAX.

**The best way to clean your instruments,
JUST GOT BETTER (AND GREENER)**
